SAPULPAN ROBBED
OF \$1,400 RINGMeade Wilson and Family
Met by Hijacker on
Automobile Trip

SAPULPA, April 20.—Meade Wilson of 308 East Lee avenue, was robbed last night of a diamond worth \$1,400. He and his wife and two small children had gone for an auto ride. As they were driving over a bridge just south of the ball park a man sprang out of the darkness and jumped on to the running board of the car. Pressing a revolver against Mr. Wilson's side, he told him to hand over the diamond. Mr. Wilson at first told him he did not have it, but the bandit forced him to remove the glove and saw the ring and forced him to hand it over. The bandit then jumped from the car and fled into the darkness. It is thought the robber had a car nearby as the Wilsons had passed another car a short distance from the bridge.

The "Gay Cat" hotel was also raided and a quantity of booze taken. In all of the places 20 gallons of "choc" and six gallons of corn whiskey were found. DISPUTES JONES' DECISION

School Land Attorney Says Pipeline Ruling Is Far Off.
By Associated Press Staff Wire.
OKLAHOMA CITY, April 20.—A statement declaring that a decision of Judge Cham Jones of Stephens county that every oil and gas lease in Oklahoma held by a company which operates a pipeline is invalid is "as far from right as possible" was made here today by George F. Merritt, title attorney for the school land department. Mr. Merritt said he had prepared a brief and would fight the case when it reaches the state supreme court. The decision was rendered in a case brought by W. D. Price, a farmer, against the Mobil Oil company, in which the plaintiff, who had 160 acres of land leased for surface privileges, sought to contest an oil and gas lease held by the defendant on the ground that his surface rights took precedence.

It was indicated that the case would be taken to the state supreme court, and possibly to the United States supreme court.

A New Peace Resolution.
WASHINGTON, April 20.—After a conference today with President Harding, Chairman Porter of the house foreign affairs committee, announced that within a few days he would offer a peace resolution similar in the main to that recently introduced in the senate by Senator Knox. He added, however, that action on it probably would not be rushed.

MAY STANDARDIZE
POLICE SYSTEMSCommissioner Addison to
Attend Conference in
New York May 3

J. M. Addison, commissioner of police and fire, wired Mayor John R. Hyman at New York city Wednesday that he will probably attend the conference in New York May 3 to 7 at which an attempt is to be made to standardize police systems throughout the country and thus add greater efficiency to various police departments in making regulations and in apprehending criminals and tracing their movements.

In a letter to Addison Mayor Hyman states that "there is a lamentable lack of co-operation between the various police organizations of the country, as well as a general lack of co-ordination in police work, and we believe such a conference will accomplish many reforms, greatly assist in the administration of criminal justice, and effect a great improvement in police service throughout the country."

Representatives are to attend the conference from virtually every city in the United States of 20,000 population or more.

Among the propositions to be considered are:

Standardization of police procedure, methods and systems throughout the United States. Closer co-operation between the various police departments of the country and a co-ordination of police work.

**Washing Won't Rid
Head of Dandruff**

The only sure way to get rid of dandruff is to dissolve it, then destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.—Adv.

Standardization of traffic regulations and traffic symbols throughout the country. Establishment of a central police bureau, perhaps in Washington or elsewhere, where criminal intelligence and constructive police information can be collected and from which such intelligence or information may be distributed. Establishment of some efficient method of handling criminal immigration through United States ports or over the borders from Mexico and Canada. Establishment of some system of controlling and tracing the movements of criminal anarchists and radicals. Establishment of some efficient method of distribution of information regarding the movements of known criminals in and out of prisons.

There is a tremendous need for such improvements in the police systems of the United States, Addison says. As an example, he cites traffic regulations, which are different in virtually every city. The motorist traveling through the country is constantly violating regulations because he is ignorant of them. Tulsa's police commissioner is heartily in favor of the establishment of a central information bureau, believing it will help substantially in checking the movements of criminals.

VIVIANI DEPARTS U. S.

French Envoy Says He Is Pleased
With His Trip, Both Socially
and Officially.

NEW YORK, April 20.—Rene Viviani, who has been in this country nearly a month as special envoy from the French government, boarded the steamship France shortly before noon today to return to his native land.

Aside from expressing general satisfaction over his trip, officially and socially, the former French premier would make no statement.

"M. Viviani says," said Mr. Knecht, addressing newspaper men, "that when he came here he had heard that there was a lack of af-

fection for France in this country and he is going away with the distinct impression that it is not true. He found the president a delightful friend and gentleman, and M. Viviani is going away pleased to find that he is indeed a friend of France."

FIND DOCTOR GUILTY

Federal Court Jury Convicts Denham
of Arson on Four Counts of
Illegal Narcotic Selling.

Dr. T. W. Denham of Ardmore was convicted on four counts Wednesday in federal court of violating the narcotic laws. His punishment will be fixed by Judge Colin Neblett later in the week. Denham is the

second doctor who has been convicted of violating the narcotic law since the federal court convened here last week. Dr. C. J. Hood of Tulsa was last Saturday found guilty and will also be sentenced this week.

The Ardmore doctor was charged with selling drugs without a license. Two alleged "dope" fields, Jess Cude and Sam Cude, were the principal witnesses for the prosecution. They testified that they had been sent to the doctor's office by federal officers and had there purchased dope. Jess said that the doctor sold him five grains each of morphine and cocaine. His brother bought a smaller amount.

On July 11, of last year, a raid was staged on the doctor's office and a large quantity of morphine

and cocaine found, secreted in a feather bed, according to the testimony of federal officers. In all, 13 small bottles of morphine, seven bottles of cocaine and \$99 tablets of morphine were found.

Arrest Bomb Suspect.
SCRANTON, Pa., April 20.—A man arrested here yesterday on suspicion of complicity in the Wall street explosion last September had been under surveillance several weeks, it was learned today. The prisoner had lived in a local foreign colony for five months. He seemed to be plentifully supplied with money, although he was said to have been unemployed.

A Fund of Information
That You Should Have

DISRAELI, who for six years was prime minister of England, said: "It has been my observation that the most successful man in any undertaking, is the man who has the most information."

It doesn't require any particular information just to go out and buy something. But to buy the best of that something at a price that is satisfactory to you—that is a successful purchase. And to make successful purchases you must have information.

Advertising gives you just that kind of information. It tells you where to go in order to get the best of anything you want at a fair price.

That is why it is a paying proposition for the man or woman who handles a pocketbook to study the advertisements in this newspaper—regularly—every day.

To those who use it properly, newspaper advertising is a source of economy and satisfaction that never runs dry. It is a watch-dog of dollars—a guarantee of satisfaction.
